Canada Limits Production  
Of Wide Range Civilian Goods

Output to Be Only  
75% of 1940—Electrical  
Appliances Chiefly Affected

MAY BE OTHER CUTS

Ottawa, Oct. 1 (CP)—A government order described officially as a "ceiling" limit on production and sale of non-essential consumer goods in wartime today limited Canadian manufacturers of a wide range of heavy civilian merchandise to 75 per cent of 1940 output.

Continuing unofficial reports which had circulated for several weeks, the government order affected radios, refrigerators, stoves, vacuum cleaners and electric washing machines. It became effective yesterday.

The statement and Supply Department statement announcing the new production ceiling are in production of "radio and electric" goods. "There can be no guarantee" that the new ceiling will be strictly followed.

The output of merchandise subject to the new ceiling will be reduced by 25 per cent. The statement said the preliminary reduction will result in a further estimated decrease in production.

### Temporary Decline In Living Standard Must Be Accepted

**Average Standard Cannot Be Maintained If Country to Wage Total War**  
**SACRIFICES NECESSARY**

Montreal, Oct. 6.—(AP)—Phonetic Montrealer today declared that a shortage of labor in housing in Canada and said the Dominion House has reached the stage where the question of war production will have to take place very largely at the expense of the consumer.

In an address to a joint luncheon of Middle Eastern clubs, the Dominion House President, Mr. J. H. McEwen, said that the government's policy of rationing and control of the economy is necessary to win the war.

"We must accept a temporary decline in living standards," he said, "if we are to win the war. The government's policy of rationing and control of the economy is necessary to win the war. The government's policy of rationing and control of the economy is necessary to win the war."

He hoped the second line, those of us who are left behind, while they haven't youth, will show the same determination to see the battle through. "Both lines are here and there's nothing in common, and this is the democratic way of fighting."

There were twelve thousand men at the air stations of this district, he pointed out, and "we want you to come here whenever it is convenient."

"The War Service Committee here in the infancy," Mr. MacLaurin said. "We represent the service clubs of the city, but we want to see every organization, no matter what it is, get their shoulder to the wheel."

Group Captain Keith, officer commanding the R.A.F. station at Picton, thanked the officials of the R.A.F. for their fine reception to his boys. "They are beginning to feel at home in this district."

He paid brief eulogy to the fine work of the Y.M.C.A. being done not only in Canada but all over the world. "We, in Pictou, especially appreciate the efforts of the Y and the fine reception and treatment recorded our chaps."

*The help of every Canadian is needed for Victory. In these days of war the thoughtless selfish spender is a traitor to our effort. BEFORE AND AFTER CHUTTING TO PRISON IN THE SKY

George Hopkins, 28-year-old pharmacist, is pictured atop Devil's Tower, sleep-deprived and looking exhausted, before he was stranded after a parachute drop.

SLAIN BY NAZIS

The Nazi-controlled Czech press revealed that Colonel Ruzicki, ABOVE, mayor of Prague, was executed in an attempt to crush the growing revolt against the "Protectors." Several members of the city council of Prague died with the mayor, the reports said.

GETS REPAIRS IN AMERICAN NAVY YARD

This view of the British submarine Pandora, showing its conning tower and gun, was taken at the Portsmouth, N.H., navy yard. The officer is Lieut. Robert Alexander, skipper of the Pandora. The sub is one of the many British vessels of war that have been sent to American shipyards for general overhauling and repair. Also in the Portsmouth yard with the Pandora was the Patricia, a submarine and the Free French sub Bureau, one of the many British vessels of war that have been sent to American shipyards for general overhauling and repair.

SWORD GOES BACK

Swirling, Scotland (CP)—The Wallace sword, one of Scotland's national relics, removed by four masked men in 1940 and discovered at Aberdeen will be restored to its place here.

SURVIVAL OF FITTEST

London (CP)—When a canister was wrecked in a raid on an east coast town a collection of more than 70 gramophone records was destroyed with the exception of one—"God Save the King."

WEDGWOOD'S JOB

London (CP)—Sir Ralph Wedgwood, former general manager of the London and North-Eastern Railway, has been appointed chairman of the Associated British Firms corporation.

RESURGENCE VIEW

Westbourne, England (CP)—The issue will eventually be with us whatever way the tide of battle turns in Russia," Lord Beauchamp, former governor-general of Canada, told House Commons here.

## WINGS OVER CANADA'S CAPITAL

Night and day the powerful throng of aircraft motors echoes over the spires and towers of Ottawa as R.C.A.F. cadets from the Advanced Service Training School at Uplands Airport acquire their finishing touches before sailing overseas.

The morning lineup of Harvard trainers, standing like sentinels to a track over the starting line.

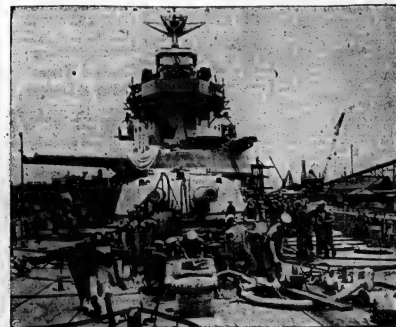

Formation flight soaring skyward with students at the controls.

## REPAIRING THE WARSHIP

A general deck scene from the battle of the present war, as the ship is being repaired. The tubes shown on deck are for the British warship, which was put in ship shape before sea-air conditions for the new work. Warship, here-ships of many navies! During the high seas once again. (ing b...)

## U.S. AMBASSADOR LEAVES VICHY

There is George Hopkins with his parachute harness all in place and with Devil's Tower in background. Just before he was sent to make his parachute descent to the top of the 800-foot monolith. Hopkins made a "safe" landing on the big rock and to new a prisoner there, being taken to get back to earth. Food and blankets were dropped to him from a plane while a blimp was to rescue him.

## U.S. ARMY'S NEWEST TROOP CARRIER

Shown in flight here is the new air force as the first of a large Curtiss transport plane which has been accepted by the U.S. Army. The plane is a 26-ton craft, powered by two 1,700-hp Wright

## R.A.F. BOMBS OCCUPIED FRANCE, THEN PHOTOGRAPHS ITS HANDIWORK

A spectacular picture made from light laid on the power station and the buildings at Grand Courville, a town in occupied France. The bombs are seen burning near the power station, a chemical factory and railway sidings, as well as among the ships near the docks.

## Little Benny's Note Book

Pop was smoking to himself in his private chair and me said, Wilbur, supposing you wanted to get a 3-cent newspaper at one of those little stands where you buy peanuts and there's a slot to deposit the coins, and supposing you didn't have 3 pennies in change, I mean supposing you only had 2 pennies and a 5-cent piece. Well, I mean naturally you'd be confronted with the choice of either depositing the 3 pennies, which would be one cent too little, or the 5-cent piece, which would be 3 cents too much and you would leave you with a clear conscience. Of course the sum involved is small, but it's a question of ethics. What I mean is, if you put in 3 cents, Benny knows the chance that you would pass the stand again and would add the missing penny, else said.

And Benny always the chance, I suppose you mean, that you might forget, pop said, and me said, That's it exactly, I mean after all, a cent is a very insignificant remainder. But on the other hand if you put in the 5-cent piece, you certainly would be 3 cents short and would be expected to report for me! One cent the next time you passed the stand, I mean.

My guess, that Benny is not to be surprised probably is more apt to be correct. If the 3-cent piece was coming to you, Benny knows better

Fly Before R.A.F.

London, Oct. 7 (CF)—A squadron of German bombers, escorted by fighters, yesterday attacked an R.A.F. bomber force on the Russian front, the Air Ministry announced today.

The German bombers, which were regarded as driven off by our fighters, who destroyed three Junkers Ju-88s, were seen to have returned to their base.

The communiques said that "near the end of the attack, several of our fighters were damaged, several so seriously that they had to be written off and returned to their base."

Today in school Miss Kelly was telling the class about proverbs, and how, any short familiar saying teaches a lesson or moral. It is known as a proverb, and proverbs were probably mankind's first form of literary expression and were passed along from mouth to mouth and thus preserved for future generations long before the days of printing. That is why we still have proverbs about all the familiar objects

Arming of Merchant Ships Highly Effective Method of Protection Says Knox

DETECTION OF SUBS

Washington, Oct. 15 (AP)—Navy Secretary Knox said today that the United States Navy is ready to arm all merchant ships in the Atlantic, and even to arm the ships in the Pacific, "as fast as the ships come into the yards."

Knox spoke as the House of Representatives today passed a resolution authorizing the president to arm merchant ships in the Atlantic, and to arm the ships in the Pacific, "as fast as the ships come into the yards."

The House action is the first step in a program to arm merchant ships in the Atlantic, and to arm the ships in the Pacific, "as fast as the ships come into the yards."

### INAUGURATION IN BERMUDA

A man whose job calls for him to thumb his nose at death is shown as he talked calmly about that job at a luncheon of the Overseas Press club in New York. He is Lieutenant Stanley E. Jenner of Britain's Royal Navy Volunteer Reserve, an expert on the disposal of land mines—the kind that the Nazis flood down by parachute to wipe out whole square blocks at a clip. He said that the mines are loaded with "hexurit," an explosive twice as deadly as TNT.

## ACCUSES MATE

Displaying a battered face, Joan Manners, blonde British film editor, told a judge she was beaten by John Langan, her divorced filmmaker husband, in a new row custody of their eight-year-old daughter Joan. The latest Langan-Manners outburst occurred just six weeks after a judge ordered a settlement of the child custody case, which has been in and out of the courts for two years previously, she said. "He seized me and flung me on the floor. He wanted to disfigure me, I am sure, for he kicked me again and again in the face." Miss Manners gained wide notoriety two years ago when she accused Langan of incest. Langan was employed, charging he refused to support Joan, an accusation he denied.

Firemen and volunteers comb wreckage of the Grand Trunk depot at Lansing, Mich., looking for possible victims after twenty-two freight cars ploughed through in spectacular railroad accident. One man was killed in the wreck and several others were injured.

### Labor Leaders on Trial As Extortionists

George E. Browne, LEFT, president of the International Alliance of Theatrical and Stage Employees, and vice-president of the American Federation of Labor, is shown with William Hoff, his representative on the went court, as they arrived at the federal court, New York, for a session of the trial in which they are co-defendants. The labor leaders are charged with extortion of \$350,000 from Hollywood's four major producing companies. Nicholas M. Schenck, president of Loew's, Inc., and a victim to the tune of \$50,000 testified that \$2,000,000 was the original sum demanded from the movie industry. But negotiations brought it down to "bargain rates."

In the early light of morning, Universal carriers of a Canadian mechanized unit trundle into the mountains near Calgary. They're off for several days.

All morning they waddle on, through surges and over inclines.

After the noon hour halt there are dishes to be done and utensils to be stowed away in neat army style . . . .

During the afternoon "advances" the lead vehicle's crew signal the presence of "gas ahead."

With this sham danger overcome, the convoy forges on, passing all manner of obstacles. One sturdy carrier is here shown crossing a swift mountain stream.

Day's End: With the sky for a ceiling and the mountains for walls, two husky soldier boys crawl betwixt the blankets of their improvised bed, while a companion playfully tucks them in "Like mother used to do." — Photos—Public Information.

### Airmen of Picton Air Station Give Enjoyable Dance at Armouries

PICTON, Oct. 17 (Special)—The dance given by the Airmen of the R.A.F. station at Picton in the armouries, last night, proved one of the most enjoyable yet. About three hundred couples were present. Music was provided by the R.A.F. band. The dance was held in the hall of the armouries, which was decorated with the letter 'V' in red, white and blue bunting and red, white and blue streamers and red, white and blue streamers. For the waltzes and quadrilles played on a complete floor, which was covered with quadrilles spots over the dance floor.

Refreshments were served by the Legion Ladies' Auxiliary at a long table decorated with apple and braid in V form and flags. The dance was held through the kindness of Group Captain Keith, C.O. of the air station, and Major W. C. Gribble, of "C" Co., H. E. Prince Edward Regiment.

## Resignation of Konyoe Considered Move to Deal With Jap Extremists

(By GLENN BARR)  
(Associated Press Staff Writer)

For the second time in three months a Japanese Government headed by Prince Fumimaro Konyoe has resigned, admitting that the world conditions presented problems which it could not deal with.

The military and ultra-patriotic extremists have been demanding for so long and so strenuously that the Japanese Government should resign that the Japanese are ready to accept its fall or continue its existence as a puppet.

Until Konyoe's resignation it seemed that it would be clear whether the war party had triumphed. Konyoe's resignation may mean the acceptance of the extremists that have wanted to end all trade with the United States, but it also may mean that another move in the Emperor's tortuous course in dealing with the extremists.

All Japan's leaders know they are confronted with the danger—a catastrophe for Japan—of war with the United States and Britain if they attack Russia while Hitler is knocking at Moscow's gates or attempt further expansion to the south. The United States and Britain are deeply committed to help Russia. Even the military probably realize that a Siberian advance would mean the danger of dismemberment of their great powers Britain, the United States, France, and China.

But they differ from the modernists in a readiness to accept this tremendous gamble.

Seven weeks ago Konyoe sent a personal message, suit unguaranteed, to President Roosevelt. The Japanese considered this a gesture of conciliation, and the peace party placed great hopes in it.

Little encouragement was given these hopes in Washington, where American leaders have made it clear that the difference in the policies of the United States, committed to a great effort to crush the Axis, had left a member of that alliance, were too fundamental to be wiped out by well-meant words and gestures. "Rendezvous" talks were carried on, but no progress was achieved.

Since hopes of the Japanese materials have been wanting and the Japanese materials have become harder to get, the peace party is in a difficult position.

The Japanese military's "New Outlook of the future" in the Far East, which has been published, and machine into Korea and Manchuria, directly to the Japanese to drive into Siberia. If the great Japanese Empire is to be a reality, it is not likely to hold back from Russia in the Far East.

But for the first time the Japanese government has put the Japanese government against the Japanese government, in a position of compromise, in a position of compromise, in a position of compromise.

were sent was to bolster the Japanese Government. The Japanese also count on demoralization of the Russian military and political setting in the East.

Japan's military leaders have given increasing signs of readiness, even aggression, to risk conflict with Russia and the United States if it comes to that. The whole trend of recent history, the short-term sweep of catastrophic events in Europe, have conspired to weaken the forces of moderation.

Factor it alone from the Japanese National tendency toward isolationism, when confronted by great disaster, a readiness often expressed by military men, to constructively at least rather submit to defeat or liquidation.

# A free people must INVEST in its own FREEDOM

## A Message

FROM THE WAR SAVINGS  
COMMITTEE, OTTAWA

The help of every Canadian is needed for Victory.

In these days of war the thoughtless, selfish spender is a traitor to our war effort.

A reduction in personal spending is now a vital necessity to relieve the pressure for goods, to enable more and more labour and materials to be diverted to winning the war. The all-out effort, which Canada must make, demands this self-denial of each of us.

Invest in War Savings Certificates the dollars you don't need to spend. After Victory, they come back to you with interest. Spend less NOW so that you can spend more THEN, when labour and materials will be available for the things you need. There is no price too high for freedom.

The people of Canada are the most fortunate in the world.

Fortunate in the great sweep of space that is ours from ocean to ocean.

Fortunate in the vast sweep of the resources of our forests, fields and mines.

Fortunate, too, in our democratic institutions.

In a word, fortunate in our freedom.

This freedom is threatened today as it has never been threatened before.

Four Simple  
Regular Methods  
of Saving

**PAYROLL SAVINGS PLAN**—For salary and wage earners. The employer simply signs a Payroll Savings Pledge, turns it in to his pay office, and his employer deducts the pledged amount regularly from his pay.

**BANK PLEDGE PLAN**—Convenient for business men and women, and others not on a payroll. Simply sign a War Savings Bank Pledge and bank will make monthly deductions from your account.

**RURAL SAVINGS PLAN**—Farmers in receipt of regular payments from co-operations, creameries, cheese factories, etc., can authorize deductions of any desired amount regularly out of each cheque. Use the Rural Pledge Card.

**WAR SAVINGS STAMPS**—Handy instalment plan. Stamp folders may be obtained from Post Offices, Banks and many retail outlets. 16 stamps will buy one \$4 Certificate, worth \$5 at maturity.

## SUPPORT THE WAR WEAPONS DRIVE IN YOUR COMMUNITY

Every town and city in Canada will soon conduct a War Weapons Drive. You will be asked to put all you've got behind the campaign in your community. Canada must provide more planes, more ships, more tanks, more guns, more shells. If you are already buying War Savings Certificates—raise your pledge. If you are not, get your dollars working for Victory.

MODERN MOSCOW SERIOUSLY THREATENED BY NAZI INVADERS

Secretary of the Navy Frank Knox and Chief of Naval Operations Harold Stark, testified before the House foreign affairs committee holding hearings on the revision of the Neutrality Act. Secretary Knox said, "We have never been neutral. We should put a period to this piece of national hypocrisy." Secretary of the Navy Frank Knox, Chief of Naval Operations Harold Stark and Chairman of the Committee Representative A. B. Bacon of New York are pictured ABOVE.

With Nazi forces approaching the city of Moscow, Russian troops are reported to be putting up a stiff resistance to the Nazi invader, and in some sectors to have slowed up the enemy advance. In recent years Moscow has been completely rebuilt, and now ranks among the most modern cities of Europe and Asia. Two of the many modern apartments for workmen are shown. # FACE YOUR PROBLEMS

To make a medium between soap and water, cream, or a cream with a moistened sponge to rid the skin of soil.

Tinted foundation, applied with a damp sponge, leaves the complexion smoothly veiled with a covering that is filmy.

From out excess cream, from applicator, then face lips and lips. And don't forget your hands; you can keep them soft, white and free from chapping with a special cream.

The softening qualities of an eye-cream cream help remove temporary puckering around eyes that is due to squinting.

With Fall comes an answer to the old problem of keeping the skin smooth and your make-up in place

**Y**OU face a new season... a season of horseback riding, bicycling, roller skating, tennis or golf... or a season of being a hot-house boy while looking your best and sitting high on the beauty pedestal. But outdoor girl or an indoor beauty, the most pressing problem right now is to save your face from the ravages of what you are doing.

The new day in the air has many a fair face harsh and dry to the touch so that it rebels against the most patiently applied make-up. The solution to this season's problem, let us hasten to add, will make and keep any complexion luminously alive.

Grouped together in efficient order to work independently, or together as a complete ritual, are: Cleansing cream which is used with water; tinted foundation which is applied with a sponge; liquid lip applied with a brush; special eye-area cream and a special hand cream which is ideal to arms, elbows, knees and other rough skin surfaces.

Whether you are a soap and water or a cleansing cream user, you'll welcome the new cleansing plan which combines a happy medium between the two methods. The cream, which is soluble in water, contains special ingredients for soothing as it cleanses. In very delicate perfume leaves the skin with a clean, fresh fragrance.

If you're being outdoors and your skin feels the least bit weathered, or whether you are going to expose it to hours of weather, you'll find this cleansing plan especially gentle and thorough.

After you've your face and throat with a coating of the special cream. When you have your face and throat, take up the cleansing sponge (this cream is the jar of cream) and moisten it with lukewarm water, remove dirt, excess water and wet upward and outward over your face and throat. Or, if you prefer, moisten the sponge, press out excess water, and take up a quantity of the cream and work it over your face and throat.

Work the cream gently around the sides of your nose, over your lips and chin. When you are done, your skin is thoroughly cleansed, rises the sponge to clear water and smooth it over the skin again.

If you're wearing a horse-back ride, or if another sport is your favorite make an application of this foundation. You'll find just the right shade for your complexion. Using the

If you don't appreciate the part, youthful look that freedom often give, try this home-made formula: one quarter of a cup of glycerine and one-half cup of lemon juice. Put or sponge this liquid over the forehead and nose several times each day. The addition of one quarter of a cup of rubbing alcohol to the lemon juice and glycerine makes a splendid skin-soothing agent for hands, arms and shoulders. Whether lightening facial skin, or hands, arms and shoulders, the formula should be used from three to five times each day and the application should be left to dry on the skin. A light coating of cream may be used if the skin feels tight.

If your face seems beset by a comparatively small it is dry, flaky, and of color and sun-burned, you will find a comparatively new cream most amenable.

little square sponge which accomplishes the job (the sponge should be slightly moistened) spot a little of the foundation over your face and throat. Then gently work over the application with the sponge until the skin is lightly but completely covered with this film-like coating. Thorough blotting results in making the skin look naturally fine, smooth and even-toned.

You won't have to use powder unless you want to. The tinted foundation gives the complexion a well-grounded appearance without the too obvious finish which so often results when powder is not used. However, if you want a soft skin finish, by all means find on a coating of the splendid powder of this ensemble.

To give the cheeks a faint hint of color, use the rouge of this group in shade No. 1. In the jar this rouge is a lovely peachy beige shade, but when applied to the cheeks they take on a delicate delicacy which entrails Nature's own cheek tones. Shade No. 2 is a trifle darker and gives the cheek tones a warm, pink glow. Shade No. 3 is a fine cream rouge in a rosy, natural red. These three cheek tones may be used on most all complexions, depending upon whether you want your cheeks to be delicately tinted, a bit more vibrant or a completely natural tone that naturally healthy cheeks take on after a period of outdoor activity.

After you've your cream cheek bones applied, then if you find you have been too sparing, go over your cheek make-up with a light dusting of the powdered rouge in the same shade.

Lip coloring plays an important part in this complexion—first, because most girls are looking for a way out of constant lip-lifting, and second, because when the right tone is used, the lips look naturally rosy. The lip coloring is liquid. The soft applicator attached to the bottle's exterior should be pressed gently against the neck of the bottle so that the moist color is

possible to press out. Then, using the applicator, outline your lips and fill in the outline. Let the application dry thoroughly and your lips will remain intact for many hours. This is the most permanent lip coloring your beauty editor has ever seen.

If you are, strictly speaking, an outdoor girl, don't for a moment think you can neglect your hands. This is all the more reason for giving them extra care. The use of the splendid hand cream before a venture on the bride path or a round of bridge, skating, golf, tennis or whatever your favorite sport, will make your hands look beautiful at once and will keep them looking that way. Wash and scrub your hands and dry them. Then massage over them a goodly amount of the hand cream. Even a liberal application, providing it is thoroughly worked over the skin, will not leave a trace of stickiness or stickiness. This cream contains ingredients for soothing chapped, rough skin. Use it often and liberally over rough hands, elbows, shoulders, arms and knees. Use it before and after exposure if you want to keep your hands soft and if you want to make rough skin smooth.

After-exposure care is very important, and don't let anything prevent you from this important ritual for preventing your skin and contrasting damage due to exposure. Use the hand cream as described above. Then use an extra coating of the cleansing cream and let it remain on for a few minutes. This cream contains special lubricating properties. Use the eye-area cream if you have tired eyes. Use the eye-area cream if you've squinted and blinched—if you have a trace of lines around your eyes. This cream has slightly antiseptic qualities which will help maintain and keep the skin around the eyes smooth.

After the eye cream is applied, use the eye cream as you wish. Use it with a smooth skin and a make-up around the eyes, your complexion and with lips and cheeks toned to the new color of your lip-line make-up.

## YOUR PROBLEMS

If I'm going to have a permanent wave must smooth and I am wondering whether I ought to cut off the ends of my hair which are split and broken, or whether I ought to let the operator who gives me my permanent cut my hair.

You may clip off the very middle of your hair. Then, either before or after your permanent, have your operator cut your hair and shape it to your head. Use a good hair and only leave and break your hair every day.

I am 18 years old. My legs are in good proportion but I am broad-shouldered. Have you any other suggestions which will help straighten my legs?

My shoulders, printed in leather, have proved extremely helpful in straightening broad shoulders. If you will send me a three-cent stamped, self-addressed envelope I will be very happy to forward my letters to you at once. When you will see results depends upon how sincerely you exercise and how really you react to the exercise.

Do you approve of cologne lotion for use as facial bleaches? Have you any other suggestions?

In addition to keeping your facial skin very clean, I suggest that you check over your diet and situation, keep your fingers away from the blemishes, and use the cologne lotion every day before going out and every night before going to bed.

I'm 20 pounds overweight. This is the result of having neglected my exercise and eaten three meals every day during the summer while on my vacation. I want to get myself in shape in a hurry.

Sorry I haven't space in these columns to print my reducing plan. If you will send me a three-cent stamped, self-addressed envelope, I'll forward my letters to you at once.

The repeated use of a blacker after each shampoo has over-colored my hair and made it brassy in color and very harsh looking. I would like to know how to fix it down and remove the yellow, brassy streaks.

performed a special cream containing bismuthated lanolin. This cream makes the hair soft and gives it a special action on the dry outer layers of the skin. Another ingredient is a soothing agent. It is used to bring extra help to dry, parched complements. For best results the cream must be left on for from five to ten minutes.

Blemishes on youthful faces should be accepted in the face, so to speak. Direct attention given to facial skin cleansing and the habit use of a complexion brush and a mild soap, plus checking of diet and situation, will often be most effective means of ridding youthful skin of unsightly blemishes. The use of an antiseptic lotion before going to bed, after thoroughly scrubbing the face, will also be most effective.

AS THE UNITED STATES ARMY ARRIVE D IN ICELAND

United States soldiers are pic-nicking in Iceland, John American, of General Banfill and will suggest the detachment of marines already stationed here. Secretary of War Einstein asserted in a letter read before the U.S. Senate that the U.S. army troops will eventually be given complete control over Iceland in guarding it against Nazi attack.

MARINES LINE UP FOR "CHOW" AT ICELANDIC OUTPOST

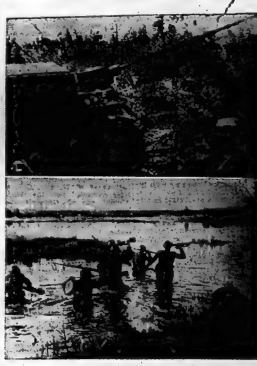

United States marines are pictured in a "chow line" at a U.S. marine camp at this outlandish Atlantic outpost. British troops in the camp met with the U.S. marines whenever they are asked. In the background of the U.S. marine camp photo can be seen one of the many German-made tents, built by British troops and British personnel. The United States troops, who recently arrived, Secretary of War

# QUEST OF THE SUN

by JOSEPH LEWIS CHADWICK

CHAPTER IV  
The arena, some rows up the distant hill, had been and was a great of victory scene through the wide gateway and rode across the parade ground. Tania glowed in the midst of the parade and the behind the shoulders of her arms and other quarters. The sun was bright.

Virginia's glance came back to Jim Randall. He sat on the edge of the grandstand, close to her other, shyly watching his daughter. He was watching the proper rise and fall of the parade. The sun was bright. The sun was bright. The sun was bright.

Virginia said finally, "Is that his brother?"  
"Yes," said Jim Randall. "The truth is, I don't know. But the truth is, I don't know. But the truth is, I don't know."

She considered him a moment, then said, "Why does mother do that? Why does mother do that?"

"Does it?"  
"Yes, it does it," said Jim Randall.

## ROOSEVELT SPEECH

Continued from Page One

The new speaker to displace the old speaker, Mr. Roosevelt, was elected to the office of the President of the United States in 1933. He was then a young man, and his election was a surprise to many. He was a man of great energy and determination, and he was determined to make a difference in the world. He was a man who was not afraid to take risks, and he was a man who was not afraid to stand up for what he believed in. He was a man who was not afraid to die for his country, and he was a man who was not afraid to live for his country.

## Another Form of Home Defense

With democracy triumphing in the present  
gigantic struggle, the homes of our country will be  
safe from outside destructive forces.

It may have been this threat which is making  
people take steps to protect their homes from within.

For this purpose, Canadians are purchasing  
an average of two million dollars of life  
insurance a week from the London Life.

Where it is necessary to create an estate for the  
protection of dependents, and the family budget has  
been greatly reduced by war obligations, life insurance  
provides the only solution for most people.

If you want to know why Canadians are  
insuring, ask one of our representatives to show you how  
present day conditions are met by the London

## How the French People Starve Under Hitler

By W. K. SPENCER, F.R.S.,  
the Manchester Guardian

The last blow which has fallen in  
very recent times on the French  
people is the fact that the  
German Government has  
announced that it will  
not allow the French people  
to export their wheat and  
other foodstuffs.

# Medicine in the News

By MORRIS FISHEIM, M.D.  
Editor Journal of the Medical Association and of Hygiene, the Health Magazine

Every director of personnel in a health agency knows that certain people have more accidents than others. A scientific study made of 1,000 workers in 1938, proved that the chance of meeting with an accident is much greater in the case of a person who has had previous accidents. At this time it was definitely proved that there is such a thing as an accident habit. All sorts of studies have been made in an attempt to show that people who have a low accident rate or who are unable to meet with accidents have a low accident rate or who are unable to meet with accidents.

Almaida Adair of Boston has made a survey of 100 workers who came before the Industrial Accident Board of Massachusetts for the settlement of claims for occupational accidents. These people were studied in order to determine the cause of their accidents. It was found that the majority of the accidents were caused by the workers' own carelessness. Chambers says the National Hockey League will have the idea of introducing a new rule in the coming season's exhibition games with general approval. A new rule would allow a player to be called out of the game if he is injured during a game. The rule would be in effect for the first two games of the season.

Young Women's Guild Discusses Agriculture At Monthly Meeting

A discussion which gave us a wealth of information was held at the home of Mrs. W. H. Duffin, on Tuesday evening, in view of the fact that agriculture is Canada's main source of wealth.

The economic, cultural, and social problems of the farm were discussed by the members of the Young Women's Guild.

It was shown by graphs and statistics that while the farmer never has had the proportionate share of the national income, during the 1930-1932 period, it fell to its lowest point.

Many bright spots, in the farmers' outlook, The Canadian Farmers' Association has been successful in the need of metal and cultural training in rural areas.

# New Ford Cars For 1942

DESIGNED to provide vast economy, comfort and styling, the new Ford cars for 1942 are offered in two series by Ford Motor Company of Canada, Limited. Deluxe models are available in four body types—the Tudor, the Victoria Sedan and the Special series in three, both have distinctive front and

back end and improved steering mechanisms contribute to better road control, better handling. Bodies are lower and riding qualities have been improved throughout. Exhaust is made effectively, in engine compartment, spring hangers to eliminate metal in noise content. This together with acoustical soundproofing gives a really good ride. A new

## Ford Cars for '42 Stress Safety In Lower Body Styles

Practising advanced styling with handsome exterior line and considerable roomy interiors, the 1942 Ford cars are lower, safer and more than 2000-lb. per sq. in. The immense program of war work being carried out by Ford Motor Company of Canada, Limited will mean sharper definition of product lines. The new 1942 Ford cars in 1942 had Ford engineers declared that the new cars are undoubtedly the finest in the 27 years of the company's history.

The New Straight Virginia HENLEY cigarette is certainly racing to fame... making cigarette history. You too will appreciate its mild and satisfying quality as countless fans are doing every time. Ask for HENLEY in the smart red-and-gold pouch pack next time. You'll then HENLEY on its race to fame.

attention to achieve an appealing, virginal effect in a variety of colors and fabrics.

One of the chief engineering advances in the 1942 car is a better and more roomy ride. The car tread—flat in the wheel between the tread and the wheel—1-1/2 inches in front and 1-3/4 inches in the rear. Hurdles have been redesigned, impinged and made more flexible. Greater rate of oscillation, and a new shock absorber combine to "take over" better vibration in much the same way that a violin string is muted. Double-action high-pressure type hydraulic shock absorbers are provided all over. The effect of the improvements is to produce a "wider" ride, even on rough country roads.

Stabilized, water steering is another safety feature of the 1942 Ford. The turner bar, which maintains balance on curves and in cross winds, has been improved

Further and now is combined with a track bar to help bring the steering mechanism in perfect alignment under all conditions.

An improved cooling system is one of the new features of the 1942 engine. This has been achieved by redesigning water passages in the cylinder block and by changing the location of the fan which is now belt-driven at higher than engine speed. Another improvement is a new "retained" exhaust system which greatly reduces exhaust gas pressure and correspondingly improved performance.

There are four Deluxe body types, the Tudor, Sedan, Coupe and Victoria Coupe, available with a choice of five colors, all in the durable Ford baked enameled metal.

Special body types are the Tudor Sedan, Power Sedan and Coupe, which come in black only.

## American Exports To Russia Rise

Washington, Oct. 31. (AP)—The United States Commerce Department revealed today that exports to Russia, probably mostly war materials, totaled in August.

While maintaining the exact nature of shipments, the department said that goods sent to Russia during August totaled \$9,000,000, compared with \$13,133,000 in July.

## Fourth Consignment Of Cigarettes Sent Through "Fag Fund"

For the fourth consignment, 15,000 cigarettes were sent to British forces serving overseas, through the medium of the Khannan Club "Fag Fund," bringing the total of cigarettes dispatched overseas through this voluntary collection to 40,000 cigarettes.

Mr. and Mrs. Randolph, Rochester, called on Mr. and Mrs. Nelson Bentley Sunday.

Mrs. Charles Bentley had the satisfaction to host her uncle quite recently.

Mrs. Jack Clifford is staying with Mrs. Raymond Sullivan who has to remain in bed for some time.

While maintaining the exact nature of shipments, the department said that goods sent to Russia during August totaled \$9,000,000, compared with \$13,133,000 in July.

This increase was due in part of the reasons why United States merchandise exports are at record for the war period of \$40,000,000 in August.

The gain in shipments to Russia, for instance, more than offset the loss of Japanese imports due to the embargo of Japanese goods on July 26. Shipments to Russia declined from \$2,000,000 in July to \$1,600,000 in August.

Another war service being sponsored by the Khannan Club of Canada is the much-appreciated "Fag Fund." The Khannan Club of the Dominion have presented the British War-time Department one box of cigarettes and one box of cigars.

**QUICK FACTS ABOUT THE 1942 FORD**

New machine styling. Body a full inch lower—with no sacrifice to its spaciousness.

Wider front and rear track. Lower centers of gravity for outstanding security. New "Vulcan" coil. Longer spring action springs. Double-acting shock absorbers. New suspension. Lower turning New Truck Bar saves "trail-brake" steering. Improved Torque Bar reduces body roll and sideway. Smaller wheels. New brake operation. Quick easy steps with less pedal pressure. New interior beauty. Easier shifting—no clutch for the De Luxe series for the sportiest who want top quality in the lowest price field. The Special series—for wartime budgets—has the same size and roominess as De Luxe models, but heavy bumper and bumper guards, built-in gravel deflectors, more guards on rear fenders, dual visors, windshield wipers, cigarette lighting, ash tray—and many other "time-of-war" features.
